Garden News

QUEENSLAND

The year 6 class has been very busy this term in the garden. As part of their Technology unit, they have been growing fresh produce which they then harvested and used to make healthy pizzas. The tomatos, shallots and herbs that they have planted are growing really well. With support from the AG teacher from Wilsonton State School, they are currently building two new garden beds and have also learnt how to set up a hot compost pile.

Benjamin recently participated in a 'Build A Bike Program' at the Wilsonton State School. During this time he enjoyed meeting new friends while learning how to build a bike. He was able to choose a new bike and is pictured with it above. Benjamin says the program gave him new skills that will help him to maintain his new bike.

Congratulations Benjamin!
